AIR SOLUTIONS YOU CAN TRUST.

## Reliable Industrial Blowers Built for Efficient Performance

Hindustan Blowers specializes in designing and manufacturing top-quality industrial blowers and ventilation systems. Our products are engineered for optimal airflow, energy efficiency, and long-term reliability. We cater to a wide range of industries, providing customized solutions to meet specific operational needs. With a focus on innovation and precision, our systems enhance productivity while minimizing maintenance. Committed to excellence, Hindustan Blowers ensures dependable performance and customer satisfaction every step of the way.

# About Us

## Hindustan Blowers

Hindustan Blowers is the most eminent company that was established in the year 2014 as a manufacturer and supplier of Dust Collector System, Dust Collector Accessories, Air Ventilation Fan, Exhaust System, Air Washer System, Humidification System and many more. We also render highly effective as well as reliable Ventilator Installation Service to our clientele.

Mr. P. Ravichandran, the Proprietor of our organization, is a man with extensive knowledge and expertise in the market. He has closely observed industry trends and understands business demand effectively. His leadership ensures the best utilization of resources, including both manpower and materials.

- ◆ High Performance
- ◆ Robust Build
- ◆ Energy Efficient
- ◆ Low Noise
- ◆ Custom Design
- ◆ Long Life

### Our Vision

Our vision is to deliver reliable and energy-efficient air movement solutions that meet diverse industrial needs. We strive to innovate continuously while ensuring quality, performance, and customer satisfaction.

### Our Mission

Our mission is to manufacture high-quality blowers and ventilation systems that ensure efficient performance and long-term reliability. We are committed to timely delivery and customized solutions.

### Our Values

Our values are rooted in quality, integrity, and customer satisfaction. We believe in delivering reliable solutions, maintaining ethical practices, and continuously improving to meet industry standards.

# Axial Fan

## Axial Fan

Pioneers in the industry, we offer Tubular Axial Fan, Tube Axial Fan, AC Axial Fan, Compact Axial Fan, Wall Axial Fan, and Wall Mounted Fresh Air Inline Fan from India. Axial fans discharge air parallel to the impeller's axis and are preferred for high-volume, low-pressure applications. We manufacture axial fans with capacities ranging from 0.25 HP to 20 HP. Various types of axial fans, including tubular axial fans and wall-mounted axial fans, are available.

### Features

- ✓ High Airflow
- ✓ Energy Efficient
- ✓ Compact Design
- ✓ Low Maintenance

# Kitchen Exhaust System

## Kitchen Exhaust System

We are involved in offering a comprehensive range of Exhaust Systems to our valued customers. The product range of these systems includes Fume Exhaust System, Roof Exhaust System, and many more. These systems are known for their rugged and robust design. We are bringing forth a comprehensive range of Kitchen Ventilators in the industry. The offered ventilators are especially engineered and designed by our team of highly qualified professionals. These ventilators are made from break-resistant material. Our ventilators are acknowledged for their simple installation and high resistance to scratches.

### Features

- ✓ Smoke Removal
- ✓ Grease Capture
- ✓ Heat Control
- ✓ Odor Elimination

# Scrubber System

## Scrubber System

Our range of products includes Industrial Scrubber System, Air Pollution Control Scrubbers, Exhaust Air Scrubber, FRP Fume Scrubber, Industrial Wet Scrubbers, and Dry Air Scrubbers. These devices can segregate pollutant particles up to 0.5 microns. The polluted gas is brought into contact with scrubbing liquid (water) by spraying the scrubbing liquid with very high-pressure nozzles. These devices are specially designed for various industries such as steel plants, chemical plants, and pharmaceutical industries.

### Features

- ✓ Air Cleaning
- ✓ Smoke Control
- ✓ Dust Removal
- ✓ Safe Operation

# Cyclone System

## Cyclone System

To meet the varied demands of the customers, we are involved in offering Cyclonic Separator. The separators that we offer have a corrosion-free body. These Cyclonic Separators are highly durable in nature and have an industry-approved design. We feel proud to introduce ourselves as the leading organization in offering Cyclonic Separator. This separator is designed and manufactured using superior-grade raw materials. Our skilled professionals are deeply concentrated on manufacturing this separator by the use of modern technology. We offer this separator in different specifications. This separator can be customized as per the requirements of esteemed customers. In addition, our Cyclonic Separator is easily available at economical rates.

### Features
